r-MicroZero

Cloth is made from 100% recycled material

Product Description

r-MicroZero is Vileda Professional's new single use cleaning cloth. The wipe is made from 100% recycled materials and 100% recyclable after usage. Its single use character and the colour coding system allow a simple differentiation of the wipes. As a result the risk of cross-contamination can easily be avoided, making the cleaning cloth especially suitable for cleaning hygienically sensitive areas according to HACCP principles.

Application area

The advanced microfibre technology promises rapid and effective cleaning of high-risk areas, while removing up to 99.99% of viruses and bacteria on different surfaces. Even delicate materials such as glass or ceramic can be cleaned with r-MicroZero without leaving any damage or marks. Due to the high absorbency of the r-MicroZero cleaning cloth, big spills and stubborn dirt like grease can be cleaned with ease.

Advantages

- Removal of up to 99.99% of viruses and bacteria – as certified by independent test institutes
- Amazing cleaning results due to the advanced microfibre cleaning performance
- Maximum single use hygiene
- Made from 100% recycled materials and 100% recyclable after use
- High absorbency
- Efficient removal of stubborn dirt

- 100% quat compatible
- Colour coding system
